

Education & Academic Honors

- Since 2025 **Bachelor in Applied Mathematics (3rd year)**, *Paris Dauphine University - PSL*, Paris
Major: Mathematics and Computer Science (MIDO).
Key coursework: Lebesgue Integration & Probability, Statistical Modelling, Derivative Pricing & Risk Management, Graph Algorithms.
GPA: 14.2/20 | Class Rank: 16/136
- 2022–2025 **CPGE - Intensive Foundation Classes (MPSI / MP*)**, *Lycée Pasteur*, Neuilly-sur-Seine
○ *Admissibility*: Mines-Ponts and CentraleSupélec.
○ *Admission*: Centrale Nantes, Centrale Lille.
- 2022 **Scientific Baccalauréat**, *Lycée Alexandre Dumas*, Saint-Cloud, Mention Très Bien
Specialization in Mathematics and Physics. GPA: 16.5/20.

Personal & Academic Projects

- 2025–2026 **Algorithmic Trading Bot & Deployment**, *Personal Project*
○ Engineered a hybrid Attention-LSTM and XGBoost model for a 25-stock US equity universe, validated via a 5-fold Walk-Forward approach to optimize Sharpe and Sortino ratios.
○ Developed a "Crash Detector" using macroeconomic volatility (VIX) and S&P 500 correlation to dynamically manage market exposure and mitigate drawdowns.
○ Built an automated CI/CD pipeline to deploy daily trading signals, ATR-based position sizing, and risk metrics directly to a web dashboard.
- 2023–2025 **Research Projects (TIPE)**, *Lycée Pasteur*
Wireless Power Transfer (2024–2025):
○ Modeled electromagnetic coupling dynamics and numerically solved differential equations in Python.
Mathematics of Rigid Origami (2023–2024):
○ Modeled 3D deployable structures using matrix transformations; built a Python simulation.

Professional Exp. & Community Service

- 2022–2025 **Private Mathematics Mentor & Tutor**, *Self-employed*, Paris
○ Provided academic support and mentorship to high school students in Mathematics and Physics.
○ Focused on pedagogical methodology and problem-solving techniques.
- 2023 **Volunteer Boxing Coach for Children**, *Club de Levallois*, Levallois-Perret
○ Assisted in teaching boxing classes mostly for kids (5–8 years old).
